

Experience the LHE Difference

SAY GOODBYE TO ACNE WITH LHE ACNE PHOTOTHERAPY

This non-invasive procedure is Quick, Safe, and Effective.

Its low energy levels create an ultra-safe treatment that requires minimal, if any, preparation.

LHE Anti-Acne Treatments

LHE (Light and Heat) Phototherapy, penetrates clogged acne pores and heals blemishes. Green Light destroys P.acnes deep in the pore while Heat soothes the inflammation and accelerates the healing process, all without harming surrounding tissue. For optimal results, a series of 6-8 treatments within 3-4 weeks is recommended.
